The manager's contract was read through and edited. After edits are made, the contract will be forwarded to Laurel, recreation director for her input. From there the contract will be forwarded to the Select Board for approval.

Stuart Rogers will find out if the house is on a separate electric meter or not. If not, down the road it would be wise to separate the house electricity from the beach electricity.

Sub-committees have no update at this point.

Discussion on property taxes to West Fairlee. Last year there was a significant drop in property tax due to a tax anomaly that no longer exists. What are the projected taxes for 2015? What are the differences in property tax for an on-site residence? The committee will research.

We are waiting for a response on the timeline for repairs at Treasure Island in regards to the property report.

April 13th committee members will attend a Select Board Meeting to offer recommendations.

8:30 PM secretary left.
